

Company Name:

Hydro-Mechanical Grease Interceptor (HGI or Grease Trap) Operation and Maintenance Log

This form must be posted near the interceptor(s) and must be used to track maintenance of interceptor inside of the building. Proper maintenance can help reduce stoppages in your buildings plumbing and reduce plugs forming in main lines of the wastewater collection system. Completion of this form will show your business's record of required maintenance for the equipment in service. Return this form to the Pretreatment Division at the address above every March, June, September, and December.

Site Address:

Date	Maintenance Performed ¹	Quantity Removed ²	Maintenance Performed By ³	Signature of Responsible Party ⁴
