UPDATED 7/13/2022

Subject: Sewer Line Relocation (S1909)

Dear Homeowner/Resident:

Snohomish County is planning to replace a creek culvert at the 2900 block of 184th Place SE in the summer of 2022. To assist with that project, the Alderwood Water & Wastewater District (AWWD) is required to replace a large portion of the sewer system that provides service to this area. AWWD has awarded a contract to Shoreline Construction Company to replace the sewer system.

STATUS AS OF 7-13-22:

The sewer has been installed and the roadway patched. The County's contractor, Marshbank Construction, has moved to the site to replace the culvert on 184th. For those details, please contact Snohomish County Public Works.

After the County finishes the summer culvert work, AWWD/Shoreline will come back to finish some pipe work at the culvert location and provide an asphalt overlay of the streets in the Fall of 2022 for the areas disturbed by trenching.

Thank you for your patience as we complete the work that is required to continue providing reliable water and sewer services.

A handwritten signature in blue ink that reads "Catherine Forrest".
